BIOGRAPHY.

2econd Class Citizen’s music is a hybrid of electronically produced folk rock combined with complex dusty drumbreaks to offer up a wide spectrum of emotive songwriting. Both his EP releases “Divided Reality” and “Wyred Folk” have created a buzz of anticipation from a diverse collection of musical circles and gained him great reviews and quotes from well respected figures in the music scene.

In september 2009, his astonishing debut album “A World Without” will be released on Equinox Records from Berlin featuring singer/songwriter Ceschi Ramos from the states and UK based rapper/wordsmith James Reindeer (fbcfabric and reindeer). In addition, a 12” vinyl came out earlier this year entitled “One By One”. It features alternate cuts from the album and remixes.

2econd Class Citizen has toured Europe in 2007 with Noah23 and Ceschi and has performed at festivals including Glastonbury (UK) and Soundwave (Croatia). Furthermore, he has shared stages with an eclectic mix of artists including Gong, Ugly Duckling and John Robinson (Scienz of Life). On top of this, he was just recently invited to produce a mix for the Solid Steel radio show (Ninja Tune) which will, without a doubt, introduce his music to a much bigger audience.

In his live sets he recreates the complexity and depth of orchestration he has become known for, utilising sound editing software with live drum/pad work, to keep a strong improvisational aspect.

SOME QUOTES.

„Wyred Folk is a densely layered, melancholy tinged mini masterpiece“ (5/5)
www.thebeatsurrender.co.uk

“This is great, really original and beautifully packaged” Strictly Kev (Ninja Tune)

“One of the most interesting and captivating blends of styles and sounds you’ll have heard in a while.” ATM Mag UK

„2CC’s formula essentially equates to mournful strumming, trip hop drums, monastery vibes and Radiohead’s ‘Street Spirit’, covering the overlap of paranoia and stoned bliss.“ 5/7 Matt Oliver (One Week to Live)

„The perfect Soundtrack“ Flashmag.de

„The Mysterious Citizen makes a convincing return to the ‘entroducing’ era through this combination of library samples, dusty drum breaks and indolent scratching, the whole EP is meticulously constructed and gave this listener at least the kind of shiver of anticipation last experienced with ‘The Broadway project’“ KM IDJ ***** recommended
