### DJ Sept - A Promise Never Given EP

DJ Sept, a munich native who already earned his stripes with last year's „Neo Golden Remixes“, returns with „A Promise Never Given“. An addict to rough beats as well as a sucker for spine tingling melodies, he presents us his very own “melodramatic” style. The EP features three tracks: The A-side starts with energetic hiphop drums turning into the rough drum’n bass tune „Seventh Sense“ and continues with the uplifting revised version of Sept’s classic „Morning Comes“. Side B on the other hand, presents the first real club hit on our label - a club hit in the style of Equinox: From start to finish „Mental Odyssey“ is pure adrenaline and it will grab your heart as well. This EP will leave nobody untouched.
