Deckard – Andromeda

“**Andromeda**” is the first single for the upcoming debut album by **Deckard** entitled “**For A Better Tomorrow**”. The release heads off with the original version of “**Andromeda**”, an incredibly well produced downbeat/electronica tune with a new twist that blends into a grooving sci fi dub/reggae part, refined with a catchy flute sample. Even though there is a dark mood in almost all of **Deckard**’s music this great track should put a smile on everyone’s face.

Bit-Tuner, the legendary producer from Switzerland, is first to remix the tune. The result is a completely new sounding, heavyweight and club friendly electro track that impresses us with interesting changes, thrilling drums and deep synth sounds. This definitely should be any dj’s favourite!

Next up are **Democracy** from Russia. The producer team recently won the Equinox remix competition for the French artist **Geste** and already released projects and tracks via the labels **Robox-Neotech**, **Error Broadcast**, **Project: Mooncircle** and **Svetlana Industries**. Now they are proving their skills with a kind of abstract version of “**Andromeda**” that switches from 5/4 to 3/4 rhythms, but, in some way, can still make your head nod! The track then develops into a beautiful clockwork sample that catches up with **Deckard**’s reggae vibe and completely blew our minds because of its unexpected approach towards the song.

Last but not least, **Rowpieces** of the **Soul Bros.** collective from Munich provides a pushing, yet mellow drum & bass version of the album track “**The Dawn**” that should work on the dancefloor but also should sound well in your headphones.

Additionally, on the digital version of this limited vinyl single you can find an alternative mix of “**The Dawn**” by **Deckard** himself which adds even more flavour to the whole EP.

The complete “**Andromeda**” single is packed with great music and should be a nice teaser for the long awaited debut release, due out in late December via **Equinox Records**.

The vinyl 12” is **limited to 100 hand numbered copies** and introduces the Equinox “**Black On Black**” vinyl series which provides limited 12”s without artwork to pay homage to underground vinyl club culture and keep it alive. Furthermore, 25 cassettes will be given away as a bonus to the first customers that by directly on the Equinox Online Store.

Artist: Deckard
Title: Andromeda
Label: Equinox Records
Cat.Nr.: eqx-032
Format: 12” / Digital
Release Date: November 25th, 2011
