## Playpad Circus – Phantasma EP

Berlin's producer wonderkid and **Finest Ego** Beat Championship winner **Playpad Circus** is finally ready to drop his debut solo EP „**Phantasma**“ on **Equinox Records** – an experimental, but yet utterly banging adventure in electronic music!

While the wonky-ish „**Trailer's Drop**“ works more like an introduction to the whole EP, „**Sculpting Supernova**“ is where „**Phantasma**“ really starts to get loose. Extreme edits are combined with a flipped vocal by **Noah23** over an impeccable drumbeat with a slight dirty south flavour. A new level is reached with the next track: „**Maria Parhuzam**“ - a pushing, straight techno style beat, which underpins multiple layers of sounds and melodies. This track will leave nobody untouched. Finally, „**Drink And Fuck**“, a song that can only be found on the digital version of the EP as it was just recently released on a 10inch split vinyl from our friends at **Luana Records**, represents anger and energy with a kind of punk approach to it.

With „**Phantasma**“ **Playpad Circus** enters the beatmaker scene with a completely inimitable style. Through the additional support from the colleagues at **Project: Moon-circle** and **Finest Ego** the EP should be another big step forward in **Playpad Circus'** uprising career. The vinyl edition is released in early december as a limited 10inch and, as usual, includes a download card for all tracks.
